# INDEX TO SUBJECT MATTER

ABDOMEN, Methods of inducing local anæsthesia in surgery of, and results, 46; chronic pain in, in nervous women, 131; focal infection in, 132; cases presenting tumors of, difficult to diagnose, 132; hepatitis in relation to inflammatory disease of, 214; differential diagnosis between acute thoracic and acute abdominal lesions, 218; subdiaphragmatic abscess and accumulations of fluid, 304; presacral tumors of congenital origin, 481

Ablatio placentæ, Cæsarean section in, 140

Abortion, Experience with 1,000 cases of, 54; collected statistics on treatment of febrile, 54; management of, 139; causes of septic miscarriages and their treatment by drainage, 485

Abscess, Acute pelvic, in children, 136; subdiaphragmatic, and accumulations of fluid, 304; route of discharge of ossifluent abscesses, 322

Acetabulum, Benign bone cysts of, 70

Acetonæmia and volvulus of small intestine in childhood, 209

Acriflavine, History of, and neutral, and use in aural surgery, 281; wound antisepsis with trypaflavine, 425

Adenoids, Clinical and roentgen-ray study of cases of tuberculosis of tonsils and, five years after operation, 6

Adnexitis, Metrorrhagic form of tuberculous, 135

Adrenals, Mesenteric cysts originating in, 27; genito-suprarenal syndrome in girl 1½ years old with successful operation, 144; changes in cortex of, in peritonitis and sepsis, 231; experimental observations on, and chromaffin system, 408

Anæmia, Pernicious or hæmolytic, of pregnancy, 51; with enlarged spleen in infancy and childhood, 131; histogenesis and nature of Gaucher's disease, 218; treatment of pernicious, by removal of marrow from long bones, 332; splenectomy for splenic, followed by continued hæmatemesis due to thrombosis of splenic vein, 477

Anæsthesia, Methods and results of inducing local, in abdominal surgery, 46; action of spinal, in intestinal obstruction, 124; value of sacral nerve block, in surgery of prostate gland and bladder, 148; spinal, 167; painless childbirth by synergistic methods, 483; comparative value of ethylene as anæsthetic, 501; death from scopolamine, 502; induction of splanchnic analgesia, 502; splanchnic analgesia, 502

Angina pectoris, Surgical treatment of, 19, 116, 287, 374; new method of resecting left cervicodorsal ganglion of sympathetic in, 197; technique of resection of cervical sympathetic, 461

Ankle, Compression leverage fractures of, 163; old fractures of, 163

Anthrax, Cutaneous, treated by local and general administration of anti-anthrax serum, 84

Antisepsis, Acriflavine and neutral acriflavine in aural surgery, 281; experimental and clinical investigations on chemical wound, especially deep disinfection with trypaflavin and rivanol, 425

Anuria, Calculous, 146; complete urinary retention caused by fibroid of posterior wall of retroflexed uterus, 219; theoretical aspects of, 231; repeated venesection-blood transfusion in acute nephritis with, 487

Appendicitis, Adhesions about ascending colon simulating chronic, 43; diagnosis of acute, in children, 43; bacteriological and pathological examination of vermiform appendix in first thirty hours of acute, with special reference to presence of "fats" in wall of appendix and lymphoid tissue, 128; drainage in acute, 212; transverse incision and dependent drainage in, 213; calculous cholecystitis and calculous, 216; differential diagnosis of chronic, 300; chronic, 300; differential diagnosis of ureteral stricture and chronic, 319; hæmaturia in, 390

Appendix, Omental incarceration of, 42; bacteriological and pathological examination of, in first thirty hours of acute appendicitis with special reference to presence of "fats" in wall of, and lymphoid tissue, 128; peritonitis of appendiceal origin and pregnancy at seventh month, 227

Arachnoiditis, Surgical treatment and end-results in generalized cisternal, simulating cerebellar tumor, 459

Arm, Syndrome of Volkmann's ischæmic contracture following injury of, without fracture, 154

Artery, Lesions following injection of living tubercle bacilli into carotid, 4; traumatic lesions of middle meningeal, 74; changes in eyes of rabbits following injection of dead tubercle bacilli into common carotid, 278; diagnosis of anomalous renal, as cause of upper urinary tract stasis, 317; aneurisms of iliac and femoral, 331; nephrectomy for embolus of left renal, 331; aneurism of basilar, simulating opium poisoning, 373; ligation of pulmonary, of one lung with and without resection of phrenic nerve, 377; massive hæmorrhage from stomach produced by unusual cause (rupture of gastric artery), 467; intracranial arteriovenous aneurism or pulsating exophthalmos, 495. *See also* Blood vessels

Arthritis, Relationship of chronic endocervicitis to chronic, 48; seminal vesicles in, 62; treatment of acute metastatic, 151; age factor in hypertrophic, 239; clinical and anatomopathological study of deforming, 240; gonorrhœal, treated by arthrotomy combined with serotherapy, 326; second great type of chronic, in relation to industrial accident cases, 417

Arthrotomy, Gonorrhœal arthritis treated by, combined with serotherapy, 326

Astigmatism, Practical aspects of irregular, 3

BACK, Reasons for lack of positive roentgen findings in cases of pain low in, 490. *See also* Spine

Bile, Relation of reaction of, to experimental cholelithiasis, 46; influence of diet on output of cholesterol in, 392

Bile duct, Cyst of common, 216; postoperative stricture of common, 475

Bile ducts, Problems encountered in treatment of disease of biliary tract, 130; clinical and operative consideration of traumatized, 216

Bilirubin, Determination of, in cholecystitis without jaundice, 215

Bladder, Demonstration of prostatic enlargement by roentgen ray after distending, with air, 64; technique for cystoscopy in presence of pus and blood, 66; idiopathic hypertrophy of, 147; necrosis and gangrene of urinary, 147; value of sacral nerve block anæsthesia in surgery of prostatic gland and, 148; dependent drainage of perivesical region, 150; value of cautery punch operation for contracture of vesical neck, 236; dis-

turbances of, in cases of uterine fibroids, 306; diagnosis and treatment of certain conditions of vesical neck, 411; regurgitation of vesical contents, 487
Blastomycosis, Systemic, 510
Blepharoptosis, Operation for, with formation of fold in lid, 108
Blood, Relation of icterus neonatorum to maternal, 58; clinical significance of chemical and serum analyses of, of uterine cancer carriers subjected to measured radiation doses, 134; comparative examinations of, after roentgen castration and vaginal hysterectomy for hæmorrhages, 136; visibility of actual blood stream with ordinary loupe, 191; bilirubin determination in cholecystitis without jaundice, 215; chemistry of, during pregnancy, 227; paradoxical shortening of coagulation time of, after intravenous administration ofsodium citrate, 332; circulatory changes in progressive hydronephrosis, 409; clinical and experimental observations on sedimentation of, 422; effects of intramuscular injection of sodium citrate upon bleeding, 496; effects on, of short wave length roentgen-ray therapy, 505
Blood transfusion, Reactions in, 165; citrate method of, after ten years, 333; repeated venesection and, in acute nephritis with anuria, 487; exsanguination-transfusion in treatment of severe toxæmia, 496
Blood vessels, Rational methods of operating on, 75; retinitis and renal function in cardiovascular renal disease, 110; diseases of, of extremities, 244; renal circulation, 317; cholecystitis associated with cardiovascular disease, 393; vascular supply of œsophagus, 464; rupture of, of umbilical cord during birth, 484. *See also* Artery, Vein
Bone, Benign cysts of, 70; importance of periosteum and endosteum in repair of transplanted, 155; regeneration of, 245; transplants of, 245; formation of pseudarthroses in transplants of, 246; route of discharge of ossifluent abscesses, 322; para-osteo-arthropathies of paraplegics, 322; effect of X-rays on marrow of, 322; giant-cell tumor of bone and specter of metastasizing giant-cell tumor, 417; growth of transplanted, 489.
Bones, Multiple skeletal metastases from cancer of breast, 22; prognosis of giant-cell sarcoma of long, 68; osseous development in endocrine disorders, 85, 415; boiled beef-bone intramedullary pegs in fractures of long, 160; changes in, in Recklinghausen's neurofibromatosis, 238; epiphyses of, of extremities at puberty, 238; treatment of pernicious anæmia by removal of marrow from long, 332; treatment of tuberculosis of, and joints, 415; treatment of acute septic osteomyelitis of long, 418; treatment of compound fractures of long, 420; combined roentgen treatment of surgical tuberculosis, 505. *See also* names of bones, bone diseases, and operations
Brain, Roentgenography of intracranial tumors with exception of hypophyseal tumors, 13; head injuries, 13; acute bilateral otitis media associated with abscess of right frontal lobe, 111; pseudo-abscess of, 115; puncture of corpus callosum, 115; minor injuries of, 196; abscess of, of paranasal sinus origin, 197; relationship of goiter to mental disturbances, 283; repair of defects of dura and, by free fat and fascial transplants, 285; intracranial suppuration of otitic origin, 285; inflammations of, and meninges of otorhinological origin, 372; operative treatment of tumors in region of sella turcica according to fronto-orbital method, 373; intracranial birth injuries with hæmorrhage, 457; papillœdema in tumors of, and its surgical treatment, 458; diagnosis and localization of otitic abscess of, 458. *See also* names of parts of brain
Braxton-Hicks version, Frozen sections through uterus of woman dying from central placenta prævia following, 140
Breast, Benign tumors of, 21; Paget's disease of female nipple a preventable disease curable in early stages, 21; multiple skeletal metastases from cancer of, 22; marked structural alteration in carcinoma of, recurring after eleven years, 22; treatment of carcinoma of, 22; radium and X-ray treatment of advanced carcinoma of, prior to amputation, 22; treatment of primary inoperable carcinoma of, by radiation, 118; modern methods in treatment of cancer of, 118; roentgen treatment of carcinomata of, 118; cancer of, 199; treatment of blue dome cyst of, 462; routes of distribution of carcinoma of, 462
Bronchi, Surgical treatment of chronic dilatation of, 24, 289; diagnosis of foreign body in, 119; clinical features of foreign bodies in, 199; extrapleural thoracoplasty in dilatation of, 201
Bronchiectasis, Surgical treatment of, 24; and pulmonary abscess, 119; extrapleural thoracoplasty in dilatation of bronchi, 201; surgical treatment of chronic bronchial dilatation, 289
Bronchoscopy, Bronchoscopic treatment of suppurative diseases of lungs, 24; mapping of lungs in pulmonary diseases, 119; relation of, to treatment of lung suppuration, 120; indications for, 377; application of bronchoscope in diagnosis and treatment of certain affections of chest, 378
Bursitis, Syphilitic, 239

CÆCUM, Ileocæcal intussusception in adult resulting from intestinal tumor, 39; cæcocolic sphincteric tract, 300
Cæsarean section, 405; in ablatio placentæ, 140; in case of fibromata complicating pregnancy in patient with Basedow's disease, 227; extraperitoneal, in presumably infected and mismanaged cases of prolonged labor, 229; myomectomy followed by, 307; Hirst transperitoneal, 313
Calcium chloride, Influence of, on production of ocular fluid and ocular pressure, 361; toxicity of intravenous, used in preparation of patients for operation, 474
Callus, Growing power of periosteal, transplanted to costal cartilages, 238
Cancer, Present status of radiation therapy in, 81; colloidal and electrical phenomena of malignant neoplasms, 83; therapy of, from surgeon's standpoint, 84; present status of intensive high-voltage radiation therapy of, 254; experiences in deep X-ray therapy of, 254; treatment of surgical carcinoma with radio-active substances, 336; limits of deep X-ray therapy and operation in malignant growths, 336; causes of failure in roentgen treatment of malignant tumors, 337; parasitic theory of, 339; limitations in radiotherapy of, 506; scars from gunshot wounds and carcinoma, 510; "carcinolysin" a new remedy for, 510. *See also* names of organs
Carcinolysin, a new remedy for carcinoma, 510
Carcinoma, *See* Cancer and names of organs
Cardiology, Surgical problems of, and technique of mitralotomy, 202
Carotid body, Tumors of, 8
Carpus, *See* Wrist
Cartilage, Nutrition of articular, and its method of repair, 489
Cataract, Conclusions as to extraction of, 364
Catheterization, Incidence of postoperative, in Johns Hopkins Hospital, 499

Chest, Diagnosis of primary intrathoracic neoplasms, 203; intrathoracic tumors, 204; differential diagnosis between acute thoracic and acute abdominal lesions, 218; application of bronchoscope in diagnosis and treatment of certain affections of, 378
Cholecystectomy versus cholecystostomy, 303
Cholecystitis, Roentgenological diagnosis of, 45; acute obstructive, 45; bilirubin determination in, without jaundice, 215; bilateral pyelonephritis and, during pregnancy cured by autogenous vaccine, 310; associated with cardiovascular disease, 393. *See also* under Gall bladder
Cholecystonephrostomy for intra-abdominal biliary exclusion from the intestines, 476
Cholecystostomy versus cholecystectomy, 303
Cholelithiasis, *See* Gall stones
Cholesterin, Influence of diet on output of cholesterol in bile, 392; infiltration of upper lip, 422
Chromaffin system, Observations on adrenals and, 408
Chyluria, Non-parasitic, 413
Circumcision, Indications and contra-indications for, in children, 147
Claw foot, Treatment of, 157
Cleft palate, Fundamental principles and recent conclusions in surgery of congenital, 193
Coccyx, Treatment of labor injuries to, 56
Colectomy, Aseptic intestinal anastomosis in, 41; for ulcerative colitis, 473
Colibacillæmia of pregnancy, 228
Colitis, Etiology of chronic ulcerative, 472; colectomy for ulcerative, 473; medical treatment of chronic ulcerative, 473
Colon, Pitfalls in roentgenographic diagnosis of lesions of, 39; carcinoma of, 40; resection of, 40; effects of stagnation in ascending, 43; adhesions about ascending, simulating chronic appendicitis, 43; inflation of, as aid to diagnosis and treatment, 299; cæcocolic sphincteric tract, 300; removal of cancer of transverse, 301; restoration of function of, 388; roentgen-ray evidence of secondary changes in, 388; cases of surgery of, 389; diverticulitis of pelvic, 389; results of exteriorization in treatment of cancer of pelvic and left, 391; diagnosis and treatment of right coloptosis and its complications, 472. *See also* Intestine
Color, Use of, in operating room, 511
Conjunctiva, Bacteriology of normal and inflamed, with reference to presence of streptococcus and pneumococcus, 3; experimental production of tuberculosis of cervical glands through oral and conjunctival infection and its relation to other organs, 77; Parinaud's disease, 279; treatment of carcinoma of, with radium, 447
Contracture, Volkmann's ischæmic, 69; syndrome of Volkmann's ischæmic, following injury of arm without fracture, 154
Coolidge tube, Quantitative variations of, 504
Cornea, Postoperative adhesions of vitreous to, 109; surgical method of dealing with keratoconus, 276
Corpus callosum, Puncture of, 115
Corpus luteum as source of large intraperitoneal hæmorrhage, 135
Cyclectomy for glaucoma, 277
Cyclodialysis for simple glaucoma, 191
Cycloplegics, Permanent loss of accommodation following use of homatropin, 276
Cystocele, End-results of new uterine shelf operation for, 482
Cystoscopy, Technique of, in presence of pus and blood, 66
Cysts, Congenital, and fistulæ of neck, 367. *See also* names of organs

DEAFNESS, Treatment of, 193; X-ray as adjunct for treatment of partial, 279
Decidua, Reactions caused by intra-uterine implantations, 306
Diabetes, Surgical risk in cases of, 167; surgery in, 168; metastatic carcinoma of pituitary gland and diabetes insipidus, 196; relation of hypophyseobasal area to pathogenesis and treatment of diabetes insipidus and polyuria, 196
Diaphragm, Hernia of, on left side without splenic megacolon treated by plicature and fixation of, by thoraco-abdominal route, 132; subdiaphragmatic abscess and accumulations of fluid, 304; hernia of, 304; phrenospasm treated by enlargement of œsophageal hiatus in, with œsophagoplasty by thoraco-abdominal extraserous route, 394; hernia of, complicated by perforating gastric ulcer, 395; roentgenological diagnosis of hernia, 478
Diathermy, Primary carcinoma of female urethra treated by, 487
Diet, Influence of, on output of cholesterol in bile, 392
Diplopia, Spasmodic, 109
Directoscope, Note on, for examination of larynx, 8
Diverticulum, Meckel's, *See under* Intestine
Drainage, Surgical, 167
Duodenoscopy, Retrograde, 120
Duodenum, Surgical treatment of pyloroduodenal stenoses due to biliary lithiasis, 32; regurgitation of contents of, into stomach in gastric ulcer, 33; end-results in perforated ulcer of 34; indications for surgical treatment of malignant and benign lesions of, 36; extensive resection of stomach in ulcer of, 38; surgical treatment of ulcer of, 122; roentgen diagnosis of ulcer of, with regard to local "direct" roentgen signs, 127; treatment of severe hæmorrhage of, 208; end-results of treatment of perforated ulcer of, 209; chronic stenosis of, 210; newer phases in roentgen interpretation of ulcer of, 210; cancer of duodenojejunal flexure, 211; production of pain in ulcer of, 211; enzymic concentrations of contents of, in health and disease, 216; pathological anatomy of ulcer of, 297; pathology and symptoms of ulcer of, 298; surgery in ulcer of, 299; treatment of severe hæmorrhage of, 381; congenital fixation of, by hepatoduodenal membranes, 385; anatomopathological research on loop of, excluded by unilateral resection, 385; roentgen examination of descending portion of, 386; external fistula of, 386; surgical pathology of, 386; megaduodenum, 386; surgical treatment of chronic ulcers of, 467; surgical pathology of, 469; present status of surgical treatment of chronic ulcer of, 470
Dyspnœa, Rapid deductive diagnosis of, requiring tracheotomy, 118

EAR, Functional hearing tests in normal cases, 4; causes of persistent otorrhœa after simple mastoidectomy, 5; plastic surgery of face, 104; treatment of deafness, 193; X-ray as adjunct in treatment of partial deafness, 279; methods and interpretation of fundamental tests of hearing, 279; primary diphtheria of middle, 280; history and use of acriflavine and neutral-acriflavine in aural surgery, 281; intracranial suppuration of otitic origin, 285; appearance and behavior of normal tympanic membrane, 364; inflammations of brain and meninges of otorhinological origin, 372; diagnosis and localization of otitic brain abscess, 458
Eclampsia, Significance of ocular changes in association with pre-eclamptic symptoms, 51; treatment of, and nephritis complicating pregnancy, 52; toxæmias of

pregnancy with analysis of cases of, 228; nature of, 228; etiology and treatment of puerperal, by Tweedy method, 314; results of treatment of, 404; Baden statistics of, in 1921 in light of functional treatment, 404. *See also* under Pregnancy
Elbow, Failure to reduce dislocation of, 86; relation of traumatic lesions of head of radius to dysfunction of, 493; treatment of fracture of olecranon process by hay hook tractor, 493
Electro-ionic medication, Experimental studies in, 255
Electrothermy, In treatment of neoplasms and other lesions 82; endothermy in neoplastic diseases, 83
Embolectomy, Cases of, 251, 252
Embolism, Postoperative pulmonary, 251
Empyema, Treatment of, in children, 292; chronic, 464
Endocervicitis, Relation of chronic, to focal infection, 48
Endocrine glands, Osseous development in disorders of, 85, 415; use and abuse of endocrinology, 85; endocrine origin of primary glaucoma, 277
Endosteum, Importance of, in repair of transplanted bone, 155
Epiphyses, Prognosis in epiphyseal line fractures, 158; of bones of extremities at puberty, 238
Ethmoid, Intrabuccal roentgenography of sphenoidal sinuses and ethmoidal cells, 6; retrobulbar and intra-ocular neuritis due to hyperplastic changes in ethmo-sphenoid sinuses, 362; suppurative diseases of, 449
Ethylene, Comparative value of, as anæsthetic, 501
Exophthalmos, Pulsating, 495
Exsanguination-transfusion in treatment of severe toxæmia, 496
Eye, Practical aspects of astigmatism, 3; bacteriology of normal and inflamed conjunctiva, 3; lesions following injection of living tubercle bacilli into carotid artery, 4; giving sight to animals deprived of functioning, 4; treatment of intra-ocular foreign bodies, 4; significance of changes in, in association with pre-eclamptic symptoms, 51; local control of circulation of, 108; postoperative adhesions of vitreous to cornea, 109; traversing wounds of orbit, 189; early treatment of injuries to eyeball, 190; ocular sporotrichosis, 191; practical value of slit lamp, 191; visibility of actual blood stream with ordinary loupe, 191; encapsulated angioma of orbit, 191; nasal accessory sinus infection and orbital disease, 193; relation of maxillary sinus to ocular diseases, 193; permanent loss of accommodation following use of homatropin, 276; tonic effect of sympathetic on ocular blood vessels, 277; changes of disk in glaucoma, 277; anatomical and functional relations of visual apparatus to central nervous system, 278; changes in, of rabbits following injection of dead tubercle bacilli into common carotid artery, 278; Parinaud's disease, 279; ocular disturbances during gestation, 311; influence of calcium chloride on production of ocular fluid and ocular pressure, 361; retrobulbar and intra-ocular neuritis due to hyperplastic changes in ethmosphenoid sinuses, 362; application of immunology to ophthalmology, 362; value of radiation therapy in ophthalmology, 362; concussion changes seen in military practice, 363; melanotic epibulbar tumor dispelled by radium, 364; application of fundamental mathematical equation to ocular refraction and ophthalmic lenses, 447; treatment of carcinoma of conjunctiva with radium, 447; use of simplified Gullstrand diaphragm ophthalmic lamp in clinical practice, 447; relation of visual disturbances to affections of posterior sinuses, 448; sphenoidal sinus and optic nerve, 448; retrobulbar neuritis of sinus origin, 448; value of visual changes in diagnosis of optic nerve disease due to latent morbid conditions of nasal accessory sinuses, 448; disturbances of, attributed to nasal disease with recovery or improvement following intranasal operative measures, 448; papilloedema in tumors of brain and its surgical treatment, 458. *See also* parts of eye and eye diseases and operations
Eyelids, Operation for blepharoptosis with formation of fold in, 108; operation for congenital ptosis, 276

FACE, Plastic surgery of, 104
Fallopian tubes, Transuterine insufflation of gas in investigation and treatment of sterility, 134; metrorrhagic form of tuberculous adnexitis, 135; conservatism in gynecological survey, 136; bilateral carcinoma of, 225; rupture and perforation of pyosalpinx into general peritoneal cavity, 308; autovaccine therapy in utero-adnexal affections, 399; importance of excising intramural portion of, in salpingectomy, 400
Femur, Benign cysts of, 70; fractures of, 247; non-operative treatment of recent fractures of, 247; deforming osteitis of neck of, 325; traction fracture of lesser trochanter, 330; pathological separation of neck of, in girls during puberty, 418; bony union in subcapital fracture of neck of, 421; exposure of shaft of, 491; fracture of neck of, 494
Fetus, Fetal indications for termination of labor, 55
Fibula, Shaft fractures of tibia and, 249; substitution of, for tibia, 328; resection of ulna and radius for central sarcoma of epiphyses followed by implantation of double free autogenous graft from, 419
Fingers, New digitocommissural operative method of treating congenital syndactylism, 155
Fistulæ, Surgical treatment of lateral cervical, 7; congenital cysts of, of neck, 367
Flat-foot, Mechanism of normal foot and, 155
Foot, Mechanism of normal, and flat-foot, 155; pathological anatomy and pathogenesis of tarsal scaphoiditis, 325
Foramen of Winslow, Intestinal occlusion through, 385
Fractures, End-results of osteosynthesis in complicated, 73; prognosis in epiphyseal line, 158; and muscle, 158; practical suggestions in treatment of, 159; intrinsic splint traction, 159; use of boiled beef-bone intramedullary pegs in, of long bones, 160; treatment of compound, of long bones, 420. *See also* names of bones

GALL bladder, Roentgenological diagnosis of cholecystic disease, 45; problems in treatment of disease of biliary tract, 130; recent controversial questions in surgery of, 130; visualization of, by sodium salt of tetrabromphenolphthalein, 303; diagnosis of lesions of, 392; relationships of diseases of, to secretory functions of stomach and pancreas, 475; gastric symptoms and disease of, 476; intra-abdominal biliary exclusion from intestines by cholecystonephrostomy, 476. *See also* gall-bladder diseases and operations
Gall stones, Surgical treatment of pyloroduodenal stenoses due to biliary lithiasis, 32; causes of formation of, 46; calculous cholecystitis associated with calculous appendicitis, 216; changes in field of surgery of, 393; time of operation in cholelithiasis, 393
Gas gangrene, Recognition and treatment of, and its incidence in civil practice in British Columbia, 425
Gastrectomy, Partial, for gastrojejunal ulcer, 34; for ulcer-cancer secondary to Balfour operation done three years previously, 297
Gastroduodenostomy, *See* Gastro-enterostomy
Gastro-enterostomy, Pylorectomy followed by gastroduodenostomy, 34; cicatricial obliteration of openings,

123; indications for gastroduodenostomy, 208; mechanism of, 211
Gastro-intestinal tract, Conditions of glands in carcinoma of, 126; multiple polyposis of, 206
Gastroscopy, Retrograde, 120
Gastrostomy, Chalk talk on, 37; improved technique for, 123
Gaucher's disease, *See* Anæmia
Genital organs, Genito-urinary tuberculosis, 149; bacteriological diagnosis of recovery from urogenital infections, 150; X-ray diagnosis in diseases of genito-urinary tract, 320; incidence and significance of urogenital symptoms in gynecological patients, 481
Gentian violet, Treatment of septicæmia and local infections with, 85; streptococcic meningitis treated with injections of, 459
Glaucoma, Cyclodialysis the best operation for simple, 191; factors determining choice of operation in, 191; changes of disk in, 277; endocrine origin of primary, 277; cyclectomy for, 277; some phases of problem of, 277
Goiter, 367; studies of exophthalmic, and involuntary nervous system, 10; status of campaign against, in Switzerland, 10; use of Lugol's solution in exophthalmic, 10; value of iodine in exophthalmic, 11; mortality of operation for simple, 12; dangers of iodine therapy in, 12; exophthalmic, operated upon by Jaboulay twenty-six years ago by bilateral section of sympathetic nerve, 12; report of commission on, of Munich Pediatric Society, 113; iodine deficiency and prevalence of simple, in Michigan, 113; fibromata complicating pregnancy in a patient with Basedow's disease, 227; morbidity of endemic, 283; relationship of, to mental disorders, 283; present status of, prophylaxis in Austria, 368; question of, in Bavaria, 368; inverse relation between iodine in food and drink and, 368; research on Basedow's disease, 369; experimental Basedow's disease and relation of thymus to thyroid gland, 453; treatment of exophthalmic, 454
Gonorrhœa, Gonorrhœal tendovaginitis during puerperium, 152
Gradenigo syndrome, 280
Gynecology, Conservatism in, 136

HÆMATEMESIS, "Without lesions," 122; due to thrombosis of splenic vein after splenectomy, 478
Hæmaturia in appendicitis, 390
Hæmorrhage, 76; origin of intracranial, in newborn, 57; pathogenesis and treatment of hæmorrhagic diatheses, 76; corpus luteum as source of large intraperitoneal, 135; hæmorrhagic disease of newborn, 315; effects of intramuscular injection of sodium citrate upon bleeding, 496. *See also* names of organs
Hæmorrhoids, Classification and treatment of, 473
Hand, Treatment of disabilities of, 71; conservation in treatment of injuries of, 498; infections of, 500
Head, Injuries of, 13
Hearing, Tests of, in normal cases, 4; methods and interpretation of fundamental tests of, 279
Heart, Surgery of, 25; retinitis and renal function in cardiovascular renal disease, 110; surgical problems of cardiology, 202; cholecystitis associated with cardiovascular disease, 393; failure of, of congestive type caused by hyperthyroidism, 453; effects of, on organism, 507
Heliotherapy, Sun cure of surgical tuberculosis, 81; in treatment of tuberculosis, 82; popular lecture on sun cure, 508
Hepatitis, Relation of, to inflammatory disease of abdomen, 214
Hernia, Method of operating upon strangulated umbilical, 122; diaphragmatic, on left side without splenic megacolon treated by plicature and diaphragmatic fixation by thoraco-abdominal route, 132; fascia plication in repair of inguinal, 206; pneumoperitoneum as aid in diagnosis of, 294; eventration of diaphragm, 304; traumatic, of diaphragm, 304; failure to relieve strangulated, 341; repair of large abdominal, by muscle transplantation, 379; diaphragmatic, complicated by perforating gastric ulcer, 395; roentgenological diagnosis of diaphragmatic, 478
Herniotomy, In 3,000 consecutive cases, 466; method of, using only white fascia, 466
Hip, Osteochondromatosis of, 154; operative treatment of old congenital dislocations of, 246; findings in case of bilateral dislocation of, subjected to operation, 246
Hodgkin's disease, Case of, with recurrent purpura and hæmorrhagic symptoms, 78; clinical significance of pathological changes in, 78; treatment of, by X-ray and radium, 166; with late development of sacro-iliac disease cured by roentgen treatment, 335
Humerus, Microscopically proved sarcoma of, 153; complicated fractures of surgical neck of, 162; treatment of fractures of neck of, by abduction and external rotation, 162; late paralysis of ulnar nerve following fracture of external condyle of, 287; intramedullary capillary angioma of shaft of, leading to spontaneous fracture treated by local resection and bone grafting, 323; fractures of, 328; exposure of, 491
Hydronephrosis, Comparative study of circulatory changes in caseocavernous tuberculosis, polycystic kidney, and, 144; review of cases of, and pyonephrosis, 231; resection of nerves of kidney for nephralgia and small, 232; circulatory changes in, 232, 409; origin and relation of perirenal, to perirenal hæmatoma, 409
Hyperthyroidism, X-ray treatment of, 195; differential diagnosis of, 452; heart failure of congestive type caused by, 453. *See also* Goiter
Hypophysis, Hypophyseobasal area in relation to pathogenesis and treatment of diabetes insipidus and polyuria, 196; metastatic carcinoma of pituitary gland and diabetes insipidus, 196; meningeal relations of hypophysis cerebri, 459
Hysterectomy, Comparative examinations of blood after roentgen castration and vaginal, for hæmorrhages, 136; relative values of irradiation and radical, for cancer of cervix, 223; after cæsarean section in patient with Basedow's disease, 227; chemical, 398

Pylorectomy followed by gastroduodenostomy, 34
Pyloroscopy, 31
Pylorus, Surgical treatment of pyloroduodenal stenoses due to biliary lithiasis, 32; treatment of hypertrophic stenosis of, 32; peptic ulcer of jejunum following exclusion of, 128; effect of resection of pylorus on formation of jejunal ulcer, 128; congenital hypertrophic stenosis of, in infants, 207; hypertrophy of, in hypertrophic pyloric stenosis, 294; hypertrophic stenosis of, 467; review of cases of hydronephrosis and, 231; prevention and treatment of, 282; rupture and perforation of, into general peritoneal cavity, 308

RADIATION therapy, Treatment of primary inoperable carcinoma of breast by, 118; uterine fibroma treated by, and then operated upon, 220; treatment of surgical carcinoma and sarcoma with radio-active substances, 336; untoward results in, in uterine cancer complicated by latent gonococcic salpingitis, 398; limitations of, in cancer, 506
Radium, And X-ray treatment of advanced carcinoma of breast prior to amputation, 22; treatment of carcinoma of œsophagus with, 26; effects of rays of, on ovary, 49; metabolic changes associated with treatment with, 80; present status of radiation therapy in cancer, 81; treatment of malignant neoplasms of pharynx and larynx, 112; clinical significance of chemical and serum analyses of blood of uterine cancer carriers subjected to measured radiation doses, 134; statistics of "clinical cures" of cancer of cervix of uterus obtained with, 134; treatment of Hodgkin's disease by, 166; treatment of uterine fibromata with, 219; for cancer of uterus, 221, 307, 398; relative values of irradiation and radical hysterectomy for cancer of cervix, 223; technique and results in treatment of carcinoma of uterine cervix at Radiumhemmet, Stockholm, 223; probable functions of spleen as demonstrated by effects of radio-activity, 303; value of radiation therapy in ophthalmology, 362; melanotic epibulbar tumor dispelled by, 364; in treatment of benign hypertrophy of prostate, 412; treatment of carcinoma of conjunctiva with, 447; in pelvic carcinoma, 481; actions of radiations on living tissues, 504

Radius, Radio-ulnar synostosis, 323; fracture of head of, 329; resection of ulna and, for central sarcoma of epiphyses followed by implantation of double free autogenous graft from fibula, 419; nerve injury in typical fracture of, 460; relation of traumatic lesions of head of, to elbow dysfunction, 493
Rectum, Experiences in surgery of, 44; treatment of cancer of, 129; principles of operation for carcinoma of, 302; extirpation of, with conservation of sphincter and without resection of bone, 302; results of operations for cancer of, 391
Refraction, Permanent loss of accommodation following use of homatropin in, 276; applications of fundamental mathematical equation to ocular, and ophthalmic lenses, 447
Respiratory tract, Biological methods of treating sarcoma of upper, 113
Retina, Posterior sclerotomy with permanent drain for detachment of, 364
Retinitis, And renal function in cardiovascular renal disease 110; pigmentosa, 276
Rhinitis, Intraseptal implantation in atrophic, 6
Rhinoplasty, Reasons for faulty results of corrective, 281. *See also* Nose
Rhizotomy, Intractable pain relative to, and spinal section, 285
Rivanol, Wound antisepsis with, 425
Roentgen-rays, Measurements on two American and two German deep-therapy machines by Duane method and Friedrich iontoquantimeter, 81; improper treatment of burn due to, 169; immediate effects of, on functions of certain tissues and organs, 426; Coolidge tube quantitative variations, 504; actions of radiations on living tissues, 504
Roentgen-ray diagnosis, Anatomical and X-ray study of optic canal in optic nerve involvement, 3; intrabuccal roentgenography of sphenoidal sinuses and ethmoidal cells, 6; clinical and roentgen-ray study of cases of tuberculosis of tonsils and adenoids five years after operation, 6; roentgenography of intracranial tumors with exception of hypophyseal tumors, 13; of spinal cord tumors with aid of lipiodol, 17; of peptic ulcer of jejunum, 39; pitfalls in diagnosis of colonic lesions, 39; of cholecystic disease, 45; roentgenology of male urethra, 62; of prostate enlargement after distending bladder with air, 64; effect of treatment of optic nerve involvement as determined by optic canal radiographs, 110; of non-opaque foreign bodies in air passages, 118; of surgical conditions of œsophagus, 120; of duodenal ulcer with regard to local "direct" roentgen signs, 127; of mastoid disease, 192; of primary intrathoracic neoplasms, 203; newer phases in, of duodenal ulcer, 210; of urethra with lipiodol, 236; study of sternum by roentgen rays, 254; pneumoperitoneum as aid in diagnosis of hernia, 294; visualization of gall bladder by sodium salt of tetrabromphenolphthalein, 303; renal stone permeable to X-ray, 318; in diseases of genito-urinary tract, 320; examination of descending portion of duodenum, 386; of colonic secondary changes, 388; of tuberculous joints, 418; of diaphragmatic hernia, 478; reasons for lack of positive roentgen findings in cases of low back pain, 490; shadows of calcified areas in bony pelvis, 504
Roentgen-ray treatment, Fundamental considerations underlying, of tonsils, 7; of advanced carcinoma of breast prior to amputation, 22, 118; postoperative, in carcinoma of uterus, 48; results of, of cancer at Erlangen Gynecological Clinic, 48; safety value of direct measurement of surface dosage in, 80; metabolic changes associated with, 80; present status of, in cancer, 81; for malignant neoplasms of pharynx and larynx, 112; clinical significance of chemical and serum analyses of blood of uterine cancer carriers subjected to measured radiation doses, 134; comparative examinations of blood after roentgen castration and vaginal hysterectomy for hæmorrhage, 136; of Hodgkin's disease, 166; improper treatment of burn due to, 169; of hyperthyroidism, 195; of syringomyelia, 197; of fibromyomata and other benign gynecological diseases, 220; of cancer of uterus, 221; present status of intensive, high-voltage, of cancer, 254; experiences in and considerations of deep, 254; dosage 1 and 2 cm. under skin from unfiltered X-rays, 254; in partial deafness, 279; of infected hypertrophic tonsil, 282; probable functions of spleen as demonstrated by effects of radio-activity, 303; effect of X-rays on bone marrow, 322; Hodgkin's disease with late development of sacro-iliac disease cured by, 335; limits of deep, and operation in treatment of malignant growths, 336; causes of failure in, of malignant tumors, 337; malignant tumor of floor of nasal fossa cured for one year by, 366; dental complications due to, 366; of cancer of uterine cervix, 398; injury to larynx from, 455; hepatic lesions in patients treated by intensive deep roentgen irradiation, 474; combined, of surgical tuberculosis, 505; effect on blood of short wave length, 505; water-cooled X-ray tube for deep, 506; clinical results of deep, 506; roentgen-ray sickness and chloride retention, 507

SACRUM, Ventral tumors of, 153; presacral tumors of congenital origin, 481
Salpingectomy, Preservation of ovarian function after operation for diseases of pelvic viscera, 50; internal and external migration of ovum and importance of excising intramural portion of fallopian tube in, 400
Salpingitis, Untoward results in radiation therapy of uterine cancer complicated by latent gonococcic, 398
Sarcoma, Treatment of surgical, with radio-active substances, 336
Scalp, Improved method of treating total avulsion of, 498
Scaphoiditis, Tarsal, of young children, 155
Scars, from gunshot wounds, Relation of, to carcinoma, 510
Sclerotomy, Posterior, with permanent drain for retinal detachment, 364
Scopolamine, Death from, 502
Sella turcica, Tumors in region of, and operative treatment by fronto-orbital method, 373
Semilunar cartilage, Possible sequela after removal of internal, 156
Seminal vesicles, Diagnosis and treatment of diseases of, 62; in arthritis, 62; results of conservative and operative treatment of diseases of, 412. *See also* Genital organs
Septicæmia, Foreign protein therapy in puerperal, 57; treatment of, and local infections by mercurochrome-220 soluble and gentian violet, 85; changes in adrenal cortex in sepsis, 231; treatment of puerperal, 141, 142, 406; prevention and treatment of puerperal, 314; statistical study of puerperal, 314; serum treatment of puerperal sepsis, 315, 406; causes of acute puerperal sepsis and its treatment by drainage, 485; suppurative pylephlebitis with pneumococcus, 495; exsanguination-transfusion in treatment of severe toxæmia, 496
Septum, Method of holding membranes of, in apposition after submucous resection without use of packing, 5; intraseptal implantation in atrophic rhinitis, 6; traumatic abscess of septum of, in children, 111
Serum, Cutaneous anthrax treated by local and general administration of anti-anthrax, 84; six cases of gon-

orrhœal arthritis treated by arthrotomy combined with serotherapy, 326; treatment of puerperal sepsis with, 406
Shoulder, Recurrent antero-internal dislocation of, 160; uncomplicated dislocations of, 161: functional end-result of unreduced dislocation of, 161: arthrodesis in treatment of paralytic loose, 327
Sigmoid, Two-stage Mikulicz operation for cancer of, 391
Sinus, Results of radical operation on frontal, 111; puncture of maxillary, 112: relation of maxillary, to ocular diseases, 193; thrombosis of cavernous, 275; etiology and diagnosis of thrombosis of lateral, 275; sphenoidal, and optic nerve, 448
Sinuses, Intrabuccal roentgenography of sphenoidal, and ethmoidal cells, 6; infection of nasal accessory, and orbital disease, 193; brain abscess originating in paranasal, 197; treatment of thrombosis of lateral and cavernous, 275; sinusitis in children, 281; retrobulbar and intra-ocular neuritis due to hyperplastic changes in ethmosphenoid, 362: relation of visual disturbances to affections of posterior, 448; retrobulbar neuritis originating in, 448; value of visual changes in diagnosis of optic nerve disease due to latent morbid condition of nasal accessory, 448; ocular disturbances attributed to nasal disease with recovery or improvement following intranasal operative measures, 448; suppurative diseases of frontal, ethmoidal, and sphenoidal, 449; suppurative disease of upper nasal, 450
Sinusitis from standpoint of general practitioner, 449
Skin, Cutaneous anthrax treated by local and general administration of anti-anthrax serum, 84; formation of vagina from, 401; action of ultraviolet light on, with particular regard to dosage, 426; principles of four types of grafting of, with improved method of treating total avulsion of scalp, 498; actions of radiations on living tissues, 504
Skull, Treatment of fractured, 103
Slit lamp, Practical value of, 191; use of simplified Gullstrand diaphragm ophthalmic lamp in clinical practice, 447
Sodium chloride, Influence of intravenous, on intestinal absorption and peristalsis, 384
Sodium citrate, Intravenous injections of, in thromboarteritis obliterans with gangrene, 252; paradoxical shortening of coagulation time of blood after intravenous administration of, 332; effects of intramuscular injection of, upon bleeding, 496
Sphenoid, Intrabuccal roentgenography of sphenoidal sinuses and ethmoidal cells, 6; retrobulbar and intra-ocular neuritis due to hyperplastic changes in the ethmosphenoid sinuses, 362; and optic nerve, 448; suppurative disease of, 449
Spinal cord, Diagnosis of neoplasms of, and value of intra-arachnoidal injections of lipiodol, 16; surgical treatment of tumors of, 17; roentgen diagnosis of tumors of, with aid of lipiodol, 17; surgery of, and spinal roots, 286, 374
Spine, Results of conservative ambulatory treatment of tuberculous spondylitis, 69; acute vertebral osteomyelitis, 152; extent and clinical importance of mobility of human, 152; method of implanting bone graft in, 156; correction of structural lateral curvature of, 156; isolated fracture of intervertebral disk, 162; Kuemmel's disease, 239; suboccipital Pott's disease, 243; anatomical study of lumbosacral region, 249; treatment of tuberculous kyphosis by osteosynthesis after gradual correction, 327; fractures of, 420; acute osteomyelitis of vertebra without involvement of spinal cord, 490; fusion of, in vertebral tuberculosis, 491
Spleen, Anæmia with enlarged, in infancy and childhood, 131; probable function of, as demonstrable by effects of radio-activity, 303; splenectomy for tuberculous cyst of, followed by recovery, 477
Splenectomy, Chronic purpuras without splenomegaly cured by, 253; end-results and clinical indications of, 477; for tuberculous cyst of spleen followed by recovery, 477; for splenic anæmia followed by continued hæmatemesis resulting from thrombosis of splenic vein, 477
Sterility, 225; transuterine insufflation of gas in investigation and treatment of, 134
Sternum, Study of, by roentgen rays, 254
Stillbirth, Pathology of, and neonatal death, 312
Stomach, Relative position of intestines and, as determined by condition and function of, 29; studies on fractional analyses, 30; differential diagnosis of surgical dyspepsias, 30; experimental production of ulcer of, 32; disease of, and its surgical treatment, 33; regurgitation of duodenal contents into, in cases of ulcer of, 33; end-results of perforated ulcer of, 34; partial gastrectomy for gastrojejunal ulcer, 34: spontaneous regeneration of mucosa of, after partial resection, 35; experiences with carcinoma of, 35; indications for surgical treatment of malignant and benign lesions of, 36; extensive resection of, in duodenal ulcer, 38; hæmatemesis "without lesions," 122; results of operations on, for ulcer and other conditions, 122; surgical treatment of ulcer of, 122; variations in gastric secretion of normal individual, 206; studies of ulcer of, 207; treatment of severe hæmorrhage of, 208; factors of safety in surgery of, 209; end-results of treatment of perforated ulcer of, 209; pressure hour-glass or cascade, 294; tuberculosis of, 294; chronic peptic ulcer, 295; longitudinal resection of lesser curvature with resection of pyloric sphincter for ulcer of, 296; gastrectomy for ulcer-cancer secondary to Balfour operation done three years previously, 297; early diagnosis of cancer of, 297; pathologico-anatomical studies on gastritis with ulcer of, 380; pathogenesis and pathological anatomy of ulcer of, 380; treatment of severe hæmorrhage of, 381; late results in carcinoma of, 382; investigations of function of, after extensive resection, 383; diaphragmatic hernia complicated by perforating ulcer of, 395; study of gastric residuum, 467; massive hæmorrhage from, produced by unusual cause, 467; surgical treatment of chronic ulcers of, 467; hypertrophic stenosis of pylorus, 467; results of surgical treatment of ulcer, 468; free hydrochloric acid in gastric contents in carcinoma of, 469; present status of surgical treatment of chronic ulcer of, 470; relationships of diseases of gall-bladder to secretory functions of, 475; gastric symptoms and gall-bladder disease, 476. *See also* Gastro-intestinal tract, Pylorus, and gastric diseases and operations
Suprarenals, *See* Adrenals
Sympathectomy, Exophthalmic goiter operated upon by Jaboulay by bilateral section of sympathetic, 12; surgical treatment of angina pectoris, 19, 116, 287, 374; new method of resection of left cervicodorsal ganglion of the sympathetic in angina pectoris, 197; intractable pain relative to rhizotomy and spinal section, 285; surgery of cord and spinal roots, 286, 374; wound healing and transplantation after, 375; treatment of trophic disturbances by periarterial, 375; sympathetic ramisection, 460; choice of procedure in ramisection for spastic paralysis, 460; technique of resection of cervical sympathetic, 461
Syndactylism, Digitocommissural operative method of treating congenital, 155

Syphilis, Results of ten-year study of, in mother and child during labor and puerperium, 56
Syringomyelia treated with X-rays twenty years ago, 197

TEETH, Dental complications probably due to roentgen treatment, 366
Tendons, Injuries, regeneration, and suture of, 490
Tendovaginitis, Gonorrhœal, during puerperium, 152
Tenodesis, Experimental study of, 419
Testicles, Testicular grafts, 65; new growths in undescended, 65; effects of decortication of, 412; treatment of post-operative, by transplantation of parathyroids of horse, 455
Tetrachlorphenolphthalein test for liver function, 474
Thoracoplasty, Extrapleural, in dilatation of bronchi, 201; surgical considerations of extrapleural, 463
Thrombo-arteritis obliterans, Intravenous injections of sodium citrate in, with gangrene, 252
Thymus, Relation of, to thyroid gland, 453; significance of, of newborn to obstetrician, 465
Thyroid, At base of tongue, 367; relation of thymus to, 453
Thyroidectomy, 12; injuries to recurrent laryngeal nerve in, 114; complications following, 454; treatment of post-operative tetany by transplantation of parathyroids of horse, 455
Tibia, Shaft fractures of, and fibula, 249; substitution of fibula for, 328
Tissue culture, Method of, and its bearing on pathological problems, 510
Tongue, Thyroid at base of, 367
Tonsillectomy, Modification of old instrument for complete enucleation of tonsil, 112; enucleator that isolates tonsil and its contents from mouth and pharynx during, 112; pulmonary abscess following, cured by bronchoscopic drainage, 119; indications for, 194; effect of, on general health of children, 452
Tonsils, Clinical and roentgen-ray study of cases of tuberculosis of, and adenoids five years after operation, 6; fundamental considerations underlying roentgen therapy of, 7; enucleator that isolates, and its contents from mouth and pharynx during tonsillectomy, 112; modification of old instrument for complete enucleation of, 112; focal infections in, 194; bacterial flora of faucial, with especial reference to hæmolytic streptococcic and associated histopathological changes, 282; X-ray therapy of infected hypertrophic, 282; nature and path of infection in, 452
Torticollis, Adult, 155; pathogenesis of muscular wry neck, 324; intrameningeal division of spinal accessory and roots of upper cervical nerves for spasmodic, 460
Tracheofistulization in pulmonary gangrene, 289
Tracheotomy, Rapid deductive diagnosis of dyspnœa requiring, 118
Trachoma, Medical and surgical treatment of, 190
Trapezoid, Fractures of, in wrist injuries, 330
Trochanter, Traction fracture of lesser, 330
Trophoblast, Implantation of human ovum and early development of, 403
Trypaflavine, *See* Acriflavine
Tubercle bacilli, Lesions following injection of living, into carotid artery, 4; changes in eyes of rabbits following injection of dead, into common carotid artery, 278
Tuberculosis, Lesions following injection of living tubercle bacilli into carotid artery, 4; heliotherapy in, 81, 82; genito-urinary, 149; combined roentgen treatment of surgical, 505. *See also* names of organs
Tumors, Electrothermic methods in treatment of neoplasms and other lesions, 82; endothermy in neoplastic diseases 83; colloidal and electrical phenomena of malignant, 83; diagnosis of primary intrathoracic neoplasms, 203; intrathoracic, 204; limits of deep X-ray therapy and operation in treatment of malignant, 336; causes of failure in roentgen treatment of malignant, 337; differential diagnosis between xanthomatous and melanin, from frozen sections 339; of xanthoma type, 339; presacral, of congenital origin, 481. *See also* names of organs
Tympanic membrane, Appearance and behavior of normal, 364

ULNA, Radio-ulnar synostosis, 323; resection of, and radius for central sarcoma of epiphyses followed by implantation of double free autogenous graft from fibula, 419
Ultraviolet light, Action of, on skin with particular regard to dosage, 426; rational dosage of stimulating, 508
Umbilical cord, Rupture of vessels of, during birth, 484
Ureter, Physiology of, 61; ectopic opening of, in male, 61; treatment of accidental occlusion of, 61; tumors of kidney pelvis and, 146; papillomatosis of, 147; calculi of, 234; obstruction and infection of, as factors in certain forms of nephropathology, 235; forced, 235; surgery of stone in, 235, 318; differential diagnosis of stricture of, and chronic appendicitis, 319; intra-ureteral manipulations, 411; studies on, with special reference to regurgitation of vesical contents, 487
Urethra, Roentgenology of male, 62; stenoses of, following prostatectomy, 64; roentgenography of, with lipiodol, 236; primary carcinoma of female, treated by diathermy, 487
Urinary tract, Surgical significance of certain abnormalities of, 148; tuberculosis of, 149; bacteriological diagnosis of recovery from infections of, 150; cause of stone in, 237; diagnosis of anomalous renal artery as cause of stasis in upper, 317; X-ray diagnosis in diseases of, 320; incidence and significance of urogenital symptoms in gynecological patients, 481
Uterus, Results of roentgen-ray therapy of cancer at Erlangen Gynecological Clinic, 48; postoperative prophylactic irradiation in carcinoma of, 48; relationship of chronic endocervicitis to focal infection, 48; statistics of "clinical cures" of cancer of cervix obtained with radium, 134; clinical significance of chemical and serum analyses of blood of uterine cancer carriers subjected to measured radiation doses, 134; conservatism in gynecological surgery, 136; frozen sections through, of woman dying during third stage of labor, illustrating mechanism of placental separation and extrusion, 140; frozen sections through, of woman dying from central placenta prævia following Braxton-Hicks version, 140; condition of pelvic floor, cervix, and fundus six weeks or longer postpartum, 141; complete urinary retention caused by fibroid of posterior wall of retroflexed, 219; review of cases of fibroids of, 219; treatment of fibromata of, 219; pregnancy following abdominal myomectomy, 220; roentgen ray as remedy in fibromyomata and other benign gynecological diseases, 220; fibroma of, treated by radiotherapy and operation, 220; radiation therapy of cancer of, 221; carcinoma of, 221; rôle of radium in treatment of carcinoma of, 221; carcinoma of body of, 221; technique and results in treatment of carcinoma of cervix at Radiumhemmet, Stockholm, 223; relative values of irradiation and radical hysterectomy for cancer of cervix, 223; fibromata of, complicating pregnancy in patient with Basedow's disease, 227; experimental decidual reactions caused by intra-uterine implantations, 306; bladder disturbances in cases of fibroids of, 306; radium and

cancer of cervix of, 307; fibromyomata of, and ovarian cysts detached from point of origin and nourished by adhesions to nearby organs, 396; chronic diseases of cervix of, with indications for endocervical enucleation, 396; treatment of fibroids of, 397; myxochondroma of, 397; cancer of, 398; treatment of cancer of cervix with radium and X-ray, 398; untoward results in radiation therapy of cancer of, complicated by latent gonococcic salpingitis, 398; results of autovaccine therapy in affections of, 399; relative value of operations for correcting position of, 479; surgical treatment of complete prolapse of, 480; adenomyoma of, with tuberculous infection, 480; end-results in treatment of carcinoma of cervix, 480; radium in pelvic carcinoma, 481; practical points in pelvic surgery, 481; end-results of new uterine shelf operation for relief of cystocele, 482; hæmorrhages of pregnant, 483; causes of acute infections of, and treatment by drainage, 485

VACCINE, Bilateral pyelonephritis and cholecystitis during pregnancy treated by autogenous, 310; results obtained from autovaccine therapy in utero-adnexal affections, 399
Vagina, Vaginal discharge, 309; formation of, from skin, 401
Varices, Ligation of popliteal vein for, according to Parona's method, 252; combined extirpation and obliteration in treatment of 331
Vas deferens, Function of, after vasotomy, 488
Vasotomy, Vas function after, 488
Vein, Ligation of popliteal, for varices according to Parona's method, 252; splenectomy for splenic anæmia followed by continued hæmatemesis due to thrombosis of splenic, 477; intracranial arteriovenous aneurism or pulsating exophthalmos, 495
Veins, Bilateral thrombosis of renal, in newborn child, 251; combined extirpation and obliteration in treatment of varicose, 331
Venesection-blood transfusion, Repeated, in anuria due to acute nephritis, 487
Vertebræ, Acute osteomyelitis of, 152; Kuemmel's disease of, 239; facts relative to study of, in industrial accident cases, 242; incidence and significance of sacralized transverse process, 324
Vertigo, Discussion on, 375
Virilism, Suprarenal, in girl 1½ years with successful operation, 144
Vitreous, Cysticercus of, 3; postoperative adhesions of, to cornea, 109

WOUNDS, Healing of, and transplantation after sympathectomy, 375; chemical antisepsis of, with trypaflavine and rivanol, 425
Wrist, Fractures of trapezoid in injuries of, 330
Wry neck, *See* Torticollis

XANTHOMA, 339; differential diagnosis between xanthomatous and melanin tumors from frozen sections, 339; tumors of, type, 339
